500 trees take 5 per cent discount from 100 rate
1000 trees take 10 per cent discount from 100 rate
Ask for special prices on larger quantities

The quantity rate applies on total number of trees of a class, not in total number ordered of different classes. Example: 6 Apple, 4 Peach, 2 Pear, do not take "dozen" rate, but "each" rate; or 50 Apple, 50 Pear, take "50" rate and not "100" rate.

We pay freight charges to customer's shipping point, and guarantee arrival in good condition

NUMBER OF TREES OR PLANTS REQUIRED PER ACRE---HOW TO ESTIMATE

Example—Divide 43560 (the number of square feet in an acre) by the number of square feet for each plant. The result is the number required for an acre.

Example—Trees 20x25 ft. apart; 20x25 equals 500 square feet; 43,560 divided by 500 equals 87 trees per acre.

If trees are planted on the equilateral triangular system, 5 per cent more trees will be required.

Usual Distances for Planting

	25 to 35 feet apart
	20 to 30 feet apart
Cherry	20 to 35 feet apart
Cherry	} 16 to 25 feet apart
.....	
.....	
.....	
.....	7 to 10 feet apart
.....	4 to 6 feet apart
Cherry	4 to 6 feet apart
Cherry	3 to 4 ft. by 5 to 7 ft.
Cherry	3 to 4 ft. by 5 to 7 ft.
Cherry—Field culture, 1 to 1½ by 2½ to 3 ft. Garden culture, 1 to 2 ft.	

We recommend fall delivery of fruit trees whenever possible. The trees are then entirely dormant, while in spring the dormant period is over, and the trees must be handled very carefully and well protected. We do not recommend fall planting in regions where the winter is severe, but advise "healing in" the trees, and thus having them on hand for as early planting as may be desired. When healing in trees in the fall, dig a trench about one and a half feet deep in loose, moist earth, throwing out the soil on one side of the trench, then place roots well apart in the trench and lay tops of trees on an incline against the loose earth that has been removed from the trench. Cover roots and at least three fourths of the tops with earth, packing it firmly about both. Mound up the earth so that water from rain or melted snow will drain off.

If the trees are handled in this manner they will come out in the spring in excellent condition.

Introduction

We thank our friends and customers for their patronage and assure them that we were never better prepared to supply their requirements in nursery stock.

We are ever mindful of the fact that starting an orchard is a very serious business, and we spare no pains to grow the best. Important details of growing, digging, packing, delivering, the selection of scions and buds, are given the personal attention of an officer of our company. This policy has necessarily limited our size. We have no ambition to have the largest nursery. We prefer quality and dependability, and compete with other nurseries on quality rather than on a price basis. Experienced orchard planters consider price carefully, but place more emphasis on quality.

Our stock is free from pest or disease. Every shipment bears the inspection certificate of a Deputy State Inspector.

We stand back of every tree or plant, and customers always know where to find us. As to our responsibility, we refer you to any bank or other business establishment in Wenatchee. Correspondence solicited.

INSTRUCTIONS

1. We begin shipping in the fall about Oct. 25th, and in the spring about March 1st. In the spring our cool basement holds stock practically dormant into the month of May, when trees outside are in full leaf.

2. Persons not acquainted with the different varieties would do well to leave the selection to us, as we shall send only those best adapted to their particular locality.

3. We hold ourselves in readiness to rectify promptly any mistakes that may occur. Such stock should be carefully examined and counted as soon as received. If anything is wrong, notify our office at once, stating what the trouble is, and do not plant until you hear from us.

Fruit Department

All fruit trees listed in approximate order of ripening. For prices, where not given, see slip opposite front page.

APPLES

SUMMER

- Yellow Transparent**—Medium size, clear pale yellow, tart, good eating.
Early Harvest—Medium size, pale yellow, fine flavor.
Red Astrachan—Large, deep crimson, acid, juicy.
Red June—Small, brilliant red, tart and juicy.

FALL

- Duchess**—Large, streaked, juicy and sweet.
Jeffries—Medium size, striped, juicy and sweet.
Gravenstein—Large, striped, excellent quality.
Wealthy—Large, bright red, tart, very good.
Wolf River—Very large, red, spicy, juicy.
Wagener—Medium size, deep red, high flavor, juicy.
Snow (Fameuse)—Medium size, deep crimson, tart, good eating.

WINTER

- Winter Banana**—Large, yellow with blush, rich, tart flavor.
Yellow Bellflower—Very large, yellow with blush, tart, juicy.
Grimes Golden—Medium size, golden yellow, good flavor.
King David—Medium, wine red, delicious flavor.
McIntosh Red—Medium size, yellow with blush, rich, tart flavor.
Jonathan—Medium size, red striped, rich flavor, very good.
Delicious—Large, dark red, excellent dessert apple.
Rhode Island Greening—Large, greenish yellow, juicy, excellent.
Baldwin—Large, deep red, juicy, tart.
Northern Spy—Large, yellow striped with red, rich and juicy.
Golden Russett—Medium size, dull russett, juicy and highly flavored.
King—Very large, yellow splashed with crimson, good in Western Washington.
Rome Beauty—Large, yellow striped with red, fine, juicy.
Spitzenberg—Medium size, deep red, excellent flavor.
White Winter Pearmain—Large, pale yellow, fine flavor.
Newtown Pippin—Large, golden yellow, good quality.
Arkansas Black—Large, dark red, fair flavor, long keeper.
Stayman Winesap—Large, yellow splashed with red, tart, good quality.
Mammoth Black Twig—Large, dark red, good keeper.
Winesap—Medium size, dark red, rich, high flavor, good producer.
Gano (Black Ben)—Medium size, deep red, productive.
Ben Davis—Yellow streaked red, productive and good keeper.

We pay freight charges to customer's shipping point, and guarantee arrival in good condition.

SPECIAL SORTS

	Each	Dozen
3 to 4 feet	\$1.00	\$10.00
4 to 6 feet	1.25	12.50

Spokane Beauty—Largest apple grown.

Liveland Raspberry—Earliest summer apple. Pink blush, striped, white flesh.

Chelan—Wonderful golden winter apple. Long keeper.

Red Gravenstein—Same as Gravenstein, except bright red.

CRABAPPLES

Transcendent—Large, red and yellow striped, good eating and cooking.

Hyslop—Largest crab, deep red, good keeper.

Red Siberian—Small, golden yellow.

Whitney No. 20—Large, glossy, striped with carmen, juicy, pleasant flavor.

Yellow Siberian—Small, golden yellow.

PEARS

Sugar—Small, sweet, good.

Clapp's Favorite—Large, resembles Bartlett, excellent flavor.

Bartlett—Large, golden yellow, juicy, buttery.

Flemish Beauty—Large, juicy, rich, heavy bearer.

Beurre d'Anjou—Large, yellow with blush, good keeper.

Doyenne du Comice—Large, yellowish red, rich and juicy.

Seckle—Small, brownish green, highly flavored.

Beurre Bosc—Large, cinnamon russett, rich and juicy, productive.

Kieffer—Large, golden yellow, blight resistant.

Idaho—Large, rich, yellow.

Beurre Easter—Large, yellow with red check, juicy and sweet.

Winter Nellis—Medium size, yellow covered with russett, very fine.

Winter Bartlett—Large, resembles Bartlett.

CHERRIES

SWEET VARIETIES

Early Purple—Small to medium, purple, juicy and sweet.

Black Tartarian—Large, purplish black, juicy and rich, pollenizer.

Governor Wood—Yellow, pollenizer.

Royal Ann—Large, pale yellow with red cheek, firm, juicy and sweet. In demand by canneries.

Long Stem Waterhouse—Medium, resembles Royal Ann, pollenizer.

Bing—Large, black, fine flavor, good shipper.

Black Republican—Large, shining black, good keeper and shipper, pollenizer.

Lambert—Largest, dark purplish black, sweet, rich, fine flavor.

DUKES AND MORELLOS (Sour)

Early Richmond—Medium size, dark red, acid.

May Duke—Large, red, juicy and rich.

We pay freight charges to customer's shipping point, and guarantee arrival in good condition.

Montmorency—Large, red, "the kind the canneries want."

Late Duke—Large, light red, late and fine.

English Morello—Large, dark red, rich, juicy, acid, good canner.

CHERRY POLLENATION

It is no longer a theory, but a recognized fact, that sweet cherries, especially Bing, Lambert, and Royal Ann require pollination from other varieties. Plant every tenth tree with some such variety as Black Tartarian, Black Republican, Waterhouse, Governor Wood, Mazzard. Proper pollination has been known to double production.

PLUMS

Climax—Very large, heart-shaped, deep red, good shipper.

Shiro (Early Gold)—Very early, large, golden yellow, good

Yellow Egg—Large, egg-shaped, yellow, good canner.

Burbank—Large, cherry red mottled with yellow, sweet, good shipper.

Maynard—Very large, nearly round, dull red, sweet.

Bradshaw—Large, dark red, flesh green, fine.

Simoni—Shape and color like tomatoe.

Peach Plum—Very large, roundish, purple.

Damson—Small, roundish oval, dark purple, fine canner.

Green Gage—Small, round, greenish yellow, good canner.

Wild Plum—Medium size, bright red, fine flavor.

Wickson—Large, dark red, sugary, fine shipper.

Satsuma—Large, nearly round, dark red flesh, small pit, very productive.

PRUNES

Tragedy—Medium size, dark purple, very rich and sweet, fine shipper.

Sugar—Large, dark purple, fine drier, contains almost 24 per cent sugar.

Hungarian—Large, dark red, juicy and sweet, good shipper.

Petite (French)—Medium size, egg shaped, purple, very sweet and fine.

Italian—Medium size, oval, dark purple, sweet.

Silver—Very large, late, green.

PEACHES

"F" denotes free-stone; "C" denotes cling-stone; "S. C." denotes semi-cling-stone.

Alexander C.—Medium size, greenish white with red blush

Hales Early S. C.—Medium size, greenish white with red cheek.

Triumph F.—Large, dark orange yellow.

Arp Beauty F.—Large, yellow with blush, delicious.

Foster F.—Large, yellow with red cheek.

Champion F.—Large, creamy with red cheek, very hardy.

Early Elberta F.—Large, golden yellow, fine shipper.

Early Crawford F.—Large, yellow, good quality.

Slappy F.—Large, deep yellow, good home canner.

Muir F.—Large, pale yellow, very firm, best for drying.

We pay freight charges to customer's shipping point, and guarantee arrival in good condition.

- J. H. Hale F.**—Very large, golden yellow, fine shipper.
Elberta F.—Very large, bright yellow, good shipper.
Late Crawford F.—Very large, yellow with dark red cheek, very good.
Tuscan Cling C.—Very large, earliest cling, commercial canner.
Lemon Cling C.—Large, light yellow, rich vinous flavor.
Orange Cling C.—Large, yellow with red cheek, rich vinous flavor, fine shipper.
Indian Cling C.—Large, deep claret colored flesh.
Phillips Cling C.—Large, yellow, small pit, fine commercial canner.
Salway F.—Large, yellow with red cheek, excellent.

SPECIAL SORTS

	Each	Dozen
4 to 6 feet	\$1.25	\$12.50
3 to 4 feet	1.00	10.00
In larger quantities, see slip opposite front page.		
J. H. Hale F. —Larger than Elberta, of fine flavor, a few days earlier.		
Miller Cling C. —Very large, fine canner.		
Mayflower S. C. —Earliest variety, white, freestone, red all over.		

NECTARINES

- Boston Red**—Large size, deep yellow with bright blush, sweet.
New White—Large, white with blush, good quality.

APRICOTS

- Gilbert**—Good size, very early, good quality.
Yakimene—The peach-apricot cross, large, early, handsome.
Wenatchee Moorpark—Very large, leading apricot of Wenatchee Valley. Our specialty.
Peach—Large, deep orange, highly flavored.
Royal—Medium size, dull yellow with orange cheek, good canner and drier.
Blenheim—Medium, oval, deep yellow, good canner.
Moorpark—Large, deep yellow blushed red, fine commercial variety.
Tilton—Medium, oval, fine flavor, fine for canning.
J. L. Budd—Russian, very hardy, delicious kernel.

QUINCE

- Champion**—Large, flesh cooks very tender.
Orange—Large, roundish, bright yellow, old favorite.
Pineapple—Large, apple shaped, flavor resembles pineapple.

GRAPES

AMERICAN VARIETIES (Hardy)

- Agawam (Red)**—One of the best reds.
Concord (Black)—General favorite, hardy, productive.
Campbells Early (Black)—Large, sweet, juicy, good.
Delaware (Red)—Small compact bunches, very sweet.
Niagara (White)—Good, called "White Concord."

We pay freight charges to customer's shipping point, and guarantee arrival in good condition.

- Moores Early (Black)—Earlier than Concord, hardy.
 Catawba (Red)—Large, the wine grape of Ohio.
 Island Belle (Black)—Large, early, good west of Cascades.
EUROPEAN VARIETIES (Medium Hardy)
 Black Hamburg (Black)—Large, a great favorite.
 Muscat (White)—Muscat flavor, a raisin grape.
 White Sweetwater (White)—Medium size, sweet, rich flavor.
 Rose of Peru (Black)—Large bunch, firm flesh.
 Thompson Seedless (White)—Small, sweet, seedless, good drier.
 Malaga (White)—Very large bunches, good shipper.
 Flame Tokay (Red)—Large, favorite.
 Zinfandel (Black)—For making claret.
 Feher Zagos (White)—Fine for sherry.

NUT TREES

ALMONDS

- I. X. L.—Large, soft shell, bears heavily.
 Nonpareil—Large, thin shell, one of the best.

WALNUTS

	Each	Dozen
Black Walnut—3 to 4 feet	\$1.25	\$12.50
Black Walnut—4 to 6 feet	1.50	15.00
Butternut, or White Walnut—3 to 4 feet	1.25	12.50
English, Franquette—4 to 6 feet	1.50	15.00
English—Grafted, 3 to 4 feet	2.00	20.00
English—Grafted, 4 to 6 feet	2.35	23.00

MISCELLANEOUS NUTS

	Each	Dozen
American Sweet Chestnut—3 to 4 feet	\$1.25	\$12.50
Spanish (Italian) Chestnut—3 to 4 feet	1.50	15.00
Hickory—2 to 3 feet	1.50	15.00
Pecan (budded)—2 to 3 feet	2.50	25.00
English Filbert—2 to 3 feet	1.00	10.00

BERRIES

BLACKBERRIES

- Evergreen—Large, delicious, bears from July to November.
 Lawton—Well known market variety.
 Mercereau—Exceedingly hardy.
 Mammoth—Rampart grower, trailing on ground, large.
 Himalaya Giant—Vigorous grower, must be trained on trellis.
 Snyder—Very hardy, an old favorite.
 Rathburn—Strong, erect grower, compact bush, good.
 Thornless—No thorns, good quality.

RASPBERRIES

- Cumberland (Black Cap)—Very large, one of the best.
 Gregg (Black Cap)—Good, old favorite.

We pay freight charges to customer's shipping point, and guarantee arrival in good condition.

- Kansas (Black Cap)**—Very hardy, good quality.
Cuthbert (Red)—Standard market variety.
Loudan (Red)—Mid-season, large fruit, good.
Columbian (Purple Cap)—Dark red, unexcelled for canning, jelly, jam.
St. Regis (Red)—Bears continuously, fine quality.

LOGANBERRY

Loganberry—1-year transplants, very large fruit, strong grower, trailing vines.

DEWBERRY

Lucretia—Low growing, trailing, very large.

GOOSEBERRIES

- Josslyn**—Red.
Oregon Champion—Large, best commercial variety, free from mildew.
Pearl—Medium size, productive, hardy.

CURRANTS

- Cherry**—Red, large, good.
London Market—Dark red, hardy.
White Grape—Golden green, large.
Victoria Red (English)—Pale red, large.
Perfection—Finest and largest known.

STRAWBERRIES

(For spring delivery only)

25 per cent with order, balance C. O. D., express or parcel post. No order accepted for less than 25 of a variety.

STANDARD VARIETIES

- Clark Seedling (Hood River)**—Large, firm, good shipper.
Magoon—Hardy, good.
Marshall—Large, good canner.

EVERBEARING VARIETIES

- Superb**—Very large, vigorous grower.
Progressive—Smaller than Superb, but better quality.

SHADE AND ORNAMENTAL TREES

Many people seem to think that the home is complete when it is well painted and a fine lawn seeded. However, shrubs and trees are to the house what the frame is to a picture, and you may as well hang a picture on the wall without a frame as to neglect to put the home in its proper setting of trees and shrubs. No matter what a fine house you have, it will look cold and unattractive unless properly set off and screened with a planting of trees and shrubs. Shrubs not only make your home more attractive, but they will make it more valuable on the market. The Massachusetts Forestry Association asked a number of real estate men: "How much do full grown shade trees along the street improve the value of adjoining residence property?" The answers averaged between twenty-five and forty percent.

You have often noticed that some home looked unusually inviting and pleasing. Had you analyzed the cause, you would no doubt have found that there was an effective planting of shrubs to "half conceal, half reveal" the house. It is not difficult or mysterious knowledge which enables the landscape artist to so completely change the appearance of a home. The house must, of course, be in the focus of the picture. It can be made to blend gracefully with its surroundings by planting dwarf shrubs around the foundation, breaking the sharp angles and corners. The monotony may be relieved by planting higher shrubs between the windows and using shrubs which flower at different times. Even a small lawn may be made very attractive by leaving the lawn itself clean, but massing shrubbery around the border. Eyesores may be covered with vines or climbing roses, or screened by tall bushes. Send for our free illustrated booklet.

SHADE AND ORNAMENTAL TREES

	Each	Dozen	100
Beech—Purple leaved, 3-4 feet	\$3.00	\$30.00
Birch—White, 6-8 feet	1.25	12.50
Box Elder—6-8 feet85	8.50	\$55.00

ROSES

CHOICE TWO-YEAR-OLD FIELD GROWN ROSES Not Hothouse Grown

Our large field-grown rose bushes should not be compared with small, tender hothouse plants offered by the mail-order houses at low prices. Such plants are always

We pay freight charges to customer's shipping point, and guarantee arrival in good condition.

disappointing, not blooming until the second season.

Our bushes are hardy, field-grown, well rooted, and will bloom the first season.

Prices: All varieties not specially priced, 75c each; \$7.50 per dozen.

WINDBREAKS

Too many farm yards in the grain-growing and stock-raising districts of the Northwest are without windbreaks.

In the states east of the Rocky Mountains a tree windbreak has long been recognized as a necessary protection, and but few farms are without them. They not only furnish protection and shelter from severe winds, but give shade to family, live stock and poultry during the hot summer weather.

Many farmers have the mistaken idea that windbreak trees cannot be grown in the drier regions, but it is a proven fact that certain varieties can be grown wherever farming can be carried on. A little care in planting, followed by frequent cultivation during the first season is all that is required. Where rainfall is very light, Black Locust, Russian Mulberry and Box Elder do well. Where moisture is more plentiful, in addition to the above mentioned varieties, plant Carolina Poplar, Lombardy Poplar and Silver Maple. All of the above varieties are rapid growers and hardy.
